MINIMUM PAYMENT REQUIREMENTS. You can obtain advances of credit during the following period: Ten Years (the "Draw Period"). After the Draw Period ends, the repayment period will begin. You will no longer be able to obtain credit advances. The length of the repayment period is as follows: After the draw period ends, yoli will be required to pay the entire balance in a single balloon payment. Your Regular Payment wifl equal the amount of your accrued FINANCE CHARGES. You will make 119 of these payments. You will then be required to pay the entire balance owing in a singie balloon payment. Your "Minimum Payment" will be the Regular Payment, plus any amount past due and all other charges. An increase in the ANNUAL PERCENTAGE RATE may increase the amount of your Regular Payment.
MINIMUM PAYMENT EXAMPLE. If you made only the minimum payment and took no other credit advances, it would take 10 years to pay off a credit advance of $\$ 10,000.00$ at an ANNUAL PERCENTAGE RATE of $5.750 \%$. During that period, you would make 119 monthly payments ranging from $\$ 44.11$ to $\$ 48.84$ and one tinal payment of $\$ 10,048.84$.

ADDITIONAL HOME EQUITY PROGRAMS. Please ask us about our other available Home Equity Line of Credit plans.
VARIABLE RATE FEATURE. The Plan has a variable rale fealure. The ANNUAL PERCENTAGE RATE (corresponding to the periodic rate), and the minimum payment amount can change as a result. The ANNUAL PERCENTAGE RATE does nol include costs other than interest.
THE INDEX. The annual percentage rate is based on the value of an index (referred to in this disclosure as the "Index"). The Index is the New York Consensus Prime as quoted in the Wall Street Journal under Money Rates. Information about the Index is available or published Wall York Consensus Prime as quoted in the Wall Street Journal under Money Rates. Information about the index is avainable or pubished Wall
Streel Journal under Money Rates. We will use the most recent Index value available to us as of 30 days prior any annual percentage rate adjustment.
ANNUAL PERCENTAGE RATE. To determine the Periodic Rate that will apply to your account, we add a margin to the value of the lndex, then divide the value by 365 days. To obtain the ANNUAL PERCENTAGE RATE we multiply the Periodic Rale by the number of days in a year ( 366 during leap years). This result is the ANNUAL PERCENTAGE RATE. A change in the Index rate generally will result in a change in the ANNUAL PERCENTAGE RATE. The amount that your ANNUAL PERCENTAGE RATE may change also may be affecled by the lifetime annual percentage rate limits, as discussed below.

Initial Annual Percentage Rate Discount. The initial annual percentage rate is "discounted" - it is not based on the lndex and margin used for later rate adjustments. The initial discounted rate will be in effect for 6 Months.
Please ask us for the current Index value, margin, discount and annual percentage rate. After you open a credit line, rate information will be provided on periodic statements that we send you.
FREQUENCY OF ANNUAL PERCENTAGE RATE ADJUSTMENTS. Your ANNUAL PERCENTAGE RATE can change on the 25 th of each month. There is no limit on the amount by which the annual percentage rate can change during any one year period. However, under no circumstances will your ANNUAL PERCENTAGE RATE exceed $18.000 \%$ per annum or, go below $5.750 \%$ per annum at any time during the term of the Plan.
MAXIMUM RATE AND PAYMENT EXAMPLE, If you had an outstanding balance of $\$ 10,000.00$, the minimum payment at the maximum ANNUAL PERCENTAGE RATE of $18.000 \%$ would be $\$ 152.88$. This ANNUAL PERCENTAGE RATE could be reached at the time of the 6 th payment.
PREPAYMENT. You may prepay all or any amount owing under the Plan at any time without penalky.
HISTORICAL EXAMPLE. The example below shows how the ANNUAL PERCENTAGE RATE and the minimum payments for a single $\$ 10,000.00$ credit advance would have changed based on changes in the Index from 2008 to 2022 . The Index values are from the following reference period: January 1. While only one payment per year is shown, payments may have varied during each year. Different outstanding principal
batances could resual in different payment amounts.
The table assumes that no additional credil advances were taken, that only the minimum payments were made, and that the rate remained constant during the year. It does not necessarily indicate how the index or your payments would change in the future.
